### Experience

#### **SOFTWARE DEVELOPER II, COMMON FORGE VENTURES; REMOTE – FEB 2022 – FEB 2025**

Led front-end development of SaaS applications using Angular and TypeScript, integrating with .NET Core, SQL Server, and GCP.

- Developed responsive web components from Figma wireframes.
- Troubleshooting, debugging, and maintenance of RESTful Web APIs.
- Defined app requirements and workflows with Product Managers.
- Delivered features in 2-week Agile sprints, prioritizing user-focused requirements.

#### **SOFTWARE DEVELOPER II, KANTAR; AUSTIN TX – 2000 – 2021**

Full stack development for enterprise web tools, specializing in modern, responsive interfaces with Angular while supporting .NET Core back-ends.

- Front-end development for Azure-based apps (Angular, .NET Core, SQL)
- Updated API controllers and wrote Entity Framework migrations.
- Managed CI/CD pipelines and version control using Git and DevOps.
- Partnered with international teams to deliver support and improvements for .NET web applications with services in Azure.

### Education

University of Houston, Houston, TX – Bachelor of Science 1996
